Built on research. Proven by results.

Historically, as publishers, we have worked with you as professors to review and help us publish content to meet your course needs. Over the past few years we expanded our research to truly gather a better understanding of today's students. We listened, we observed and we followed students to understand how they study, how they take notes, how they read and how they use the web. We also watched instructors prepare, teach, assess, and evaluate their students. Students told us they want more visual and interactive appeal at a less expensive price. They also strive for new ways to be more efficient in their learning.

Now, with our newest M-series program, **LifeSmart: Exploring Human Development**, you have the opportunity to engage your students as you never have before. **LifeSmart**'s adaptive diagnostic provides your students with the ability to assess what they know and don't know before their tests. Furthermore, **LifeSmart** provides Milestones, our new video and assessment program that helps bring the course material to life, so your students can witness development as it unfolds. Our research gives students current and relevant applications to their lives in a new design layout that will grab your student's attention and make serious scholarship enjoyable to read. **LifeSmart** fits today's students.
