Practical Common Lisp

By Peter Seibel

Practical Common Lisp By Peter Seibel

...it has a fresh view on the language and the examples in the later chapters are usable in your day-to-day work as a programmer. — Frank Buss, Lisp Programmer and Slashdot Contributor

If you're interested in Lisp as it relates to Python or Perl, and want to learn through doing rather than watching, *Practical Common Lisp* is an excellent entry point. — Chris McAvoy, Chicago Python Users Group

Lisp is often thought of as an academic language, but it need not be. This is the first book that introduces Lisp as a language for the real world.

Practical Common Lisp presents a thorough introduction to Common Lisp, providing you with an overall understanding of the language features and how they work. Over a third of the book is devoted to practical examples such as the core of a spam filter and a web application for browsing MP3s and streaming them via the Shoutcast protocol to any standard MP3 client software (e.g., iTunes, XMMS, or WinAmp). In other "practical" chapters, author Peter Seibel demonstrates how to build a simple but flexible in-memory database, how to parse binary files, and how to build a unit test framework in 26 lines of code.

Editorial Review

About the Author
Peter Seibel is a serious developer of long standing. In the early days of the Web, he hacked Perl for Mother Jones and Organic Online. He participated in the Java revolution as an early employee at WebLogic which, after its acquisition by BEA, became the cornerstone of the latter's rapid growth in the J2EE sphere. He has also taught Java programming at UC Berkeley Extension. He is the author of Practical Common LISP from Apress.

Users Review

From reader reviews:

Neil Turner:

Book is to be different per grade. Book for children right up until adult are different content. As we know that book is very important usually. The book Practical Common Lisp was making you to know about other know-how and of course you can take more information. It is quite advantages for you. The book Practical Common Lisp is not only giving you much more new information but also to get your friend when you sense bored. You can spend your personal spend time to read your e-book. Try to make relationship with all the book Practical Common Lisp. You never truly feel lose out for everything should you read some books.

John Richey:

In this 21st hundred years, people become competitive in every way. By being competitive today, people have do something to make these people survives, being in the middle of typically the crowded place and notice by means of surrounding. One thing that occasionally many people have underestimated the item for a while is reading. That's why, by reading a reserve your ability to survive boost then having chance to stand than other is high. In your case who want to start reading the book, we give you that Practical Common Lisp book as basic and daily reading publication. Why, because this book is usually more than just a book.

Patrick Lyon:

Playing with family in a park, coming to see the sea world or hanging out with buddies is thing that usually you could have done when you have spare time, after that why you don't try point that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Practical Common Lisp, you may enjoy both. It is great combination right, you still need to miss it? What kind of hang-out type is it? Oh can happen its mind hangout fellas. What? Still don't obtain it, oh come on its known as reading friends.

Billie Gallagher:

Can you one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Make an effort to pick one book that you just dont know the inside because don't assess book by its deal with may doesn't work this is difficult job because you are afraid that the inside maybe not as fantastic as in the outside appear likes. Maybe you answer could be Practical Common Lisp why because the fantastic cover that make you consider with regards to the content will not disappoint a person. The inside or content will be fantastic as the outside or even cover. Your reading 6th sense will directly assist you to pick up this book.
