### Pulse By Edna Buchanan

With the perfect wife, two beautiful daughters and a successful business, Frank Douglas had everything to live for. But someone else had to die first.

If Daniel Alexander had not committed suicide, Frank Douglas would never have lived to see his forty-fifth birthday. Alexander's heart now beats strong and sure in Douglas's chest. The donated organ has given the successful Miami businessman a second chance but it gives him no peace.

Disturbed by nagging feelings of guilt and uncertainty, Frank sets out to discover all he can about the benefactor whose death gave him life. His search leads him to Rory Alexander--Daniel's beautiful, enigmatic wife-and to troubling questions and shocking revelations about the late man's affairs. Why, for example, have the profits from Alexander's seemingly successful business ventures mysteriously vanished? And why is Rory so unshakably certain that her husband was murdered?

A numbers man, Frank Douglas needs to have the figures add up--and that need is drawing him and a seductive, distraught widow across the length of a nation, and deep into something corrupt and twisted and deadly. And suddenly the new life he was granted is in serious peril, threatened by secrets, lies, human savagery and greed. . .and by the true dark nature of the heart that is now pumping the lifeblood through his body.

## Editorial Review

From [Booklist](#)

Frank Douglas likes making deals, accumulating wealth, and consolidating power. He drives himself until his heart fails, and he must undergo a transplant. He has a new chance at life and vows it will be different--he will spend more time with Kathleen and the girls. Then Frank finds out that his donor had committed suicide, and he sets out to help the donor's family; however, the widow, Rory, is convinced her husband, Daniel, was murdered. Frank teams with Rory to find out what really happened to Daniel. Buchanan, the Pulitzer Prize<sup>^</sup>-winning Miami journalist and author of the very popular Britt Montero mystery series, knows crime, criminals, and their victims very well. In addition, what she is exhibiting here (as well as in the last two Montero novels) is a deep understanding of human motivation. Frank Douglas is awestruck by his second chance at life and desperately wants to reinvent himself as the all-American family man. He's also confused and frustrated by his inability to change. He's as driven as ever; all he can hope to do is to understand himself. It's a difficult internal journey, and it takes a writer with Buchanan's skill to portray it accurately and empathetically. *Wes Lukowsky*

From Kirkus Reviews

A transplant patient finds that he's bought into a lot more than another man's heart, in this greased-lightning thriller from the Pulitzer-winning crime reporter best known for her Britt Montero mysteries (*Margin of Error*, 1997, etc.). Overwhelmed with gratitude at the donor whose heart saved his life, Frank Douglas isn't satisfied with all the rules about confidentiality; despite his private eye's warning that the man who gave him a second chance at life probably wasn't a model citizen--now that traffic fatalities are down, most organ donors are shooting victims--he wants to locate the donor's family and thank them. And the donor he finds, suicidal businessman Daniel Alexander, turns out to be too good to be true: a man who piled up a substantial estate and left behind a tender note for his wife Rory before he blew his brains out. But just as Frank's disturbing dreams and flashbacks (as if his new heart were remembering its old life) are starting to get to him, and his family's behavior his own wife Kathleen doesn't like the time he's spending with Rory; his teenaged daughter Shandi is defying her grounding and seeing a much older man--Frank starts to find holes in the official story of Daniel's death. In the weeks before he died, it turns out, he carefully cleaned out all the nest eggs he'd left for Rory; his body was cremated as soon as its vital organs had been harvested; and his closemouthed ex-partner Ron Harrington is killed minutes before his meeting with Frank. Could Daniel have been murdered, despite all the forensic evidence--or could he still be alive, leaving Frank with a stranger's heart? There's no leisure to worry about the subtleties of these questions, because Frank's growing intimacy with Rory has Kathleen putting pressure on him back home--pressure that'll chase him from Florida all the way to the Pacific one step ahead of the police. Buchanan rides her irresistible premise hell-for-leather all the way to the fairy-tale ending. (Author tour) -- *Copyright ©1998, Kirkus Associates, LP. All rights reserved.*

Review

Buchanan's sharp, clean plotting ... gives this yarn some real jolts. -- *Entertainment Weekly, Rhonda Johnson*

## Users Review

From reader reviews:

**Josephine Lowe:**

The book Pulse give you a sense of feeling enjoy for your spare time. You should use to make your capable

far more increase. Book can to be your best friend when you getting stress or having big problem along with your subject. If you can make reading a book Pulse to get your habit, you can get more advantages, like add your capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like start and read a publication Pulse. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other folks. So , how do you think about this reserve?

#### **Tracy Caudle:**

Reading can called thoughts hangout, why?
