From Routledge

New Directions in US Foreign Policy (Routledge Studies in US Foreign Policy) From Routledge

New Directions in US Foreign Policy is a state of the art overview of US foreign policy, providing a comprehensive account of the latest theoretical perspectives, the key actors and issues, and new policy directions. Offering a detailed and systematic outline of the field, this text:

- Explains how international relations theories such as realism, liberalism and constructivism can help us to interpret US foreign policy
- Examines the key influential actors shaping foreign policy, from political parties and think tanks to religious groups and public opinion
- Explores the most important new policy directions from the 'war on terror' and relations with the UN to democracy promotion and 'imperialism'
- Supplies succinct presentation of relevant case material, and provides recommendations for further reading and web sources for pursuing future research.

Written by a distinguished line-up of contributors actively engaged in original research on the topics covered, this text provides a unique platform for rigorous debate over the contentious issues that surround US foreign policy. This wide-ranging text is essential reading for all students and scholars of US foreign policy.

Editorial Review

Review

"This book provides a clear, well-written and stimulating guide to key debates and issues in contemporary US foreign policy. It will both inform and provoke debate about this hugely important, and equally controversial, subject." - *Professor Mark Phythian, University of Leicester, UK*

"This book delivers on its promise of being lively and opinionated. In addition it is thoughtful and well-informed. These esteemed academics tackle the key issues of the day with aplomb." - *Brendon O'Connor, Associate Professor in American Politics, United States Studies Centre, University of Sydney*

'Although the analytical depth of the texts and the construction of a useful conceptualisation are directed towards an academic readership, by exploring various facets of and influences on US international affairs often neglected by US foreign policy studies, sections of the book offer interesting reading for anyone keen on understanding contemporary international events.' - *The International Spectator, Vol. 46, No. 1 (March 2011) 162*

About the Author
