Editorial Review

Review

"Laced with engaging case histories, this well-written account will appeal to the scholarly community as well as educated general readers." G.P. Blum, Choice

"This book is a major addition to the small, but growing, body of scholarship about Jewish life in post-World War II Germany. Rapaport presents a richly textured portrait of Jewish daily life, focusing primarily on the processes that produce and preserve a sense of Jewish identity. Historians...will find in Rapaport a good example of how to understand ethnic mentality as the product of an interaction between collective memory and the dense reality of everyday life." Alan E. Steinweis, Jnl of Interdisciplinary History

"Rapaport shows nicely how today's Jews in Germany -- who, tellingly, would never identify themselves as German Jews -- possess all the characteristics of being an indistinguishable segment of German culture and society. In short, they would be indistinguishable from the Germans but for one major fact: their collective memory about the Holocaust. This, as Rapaport demonstrates in impressive detail, affects all their perceptions of and interactions with Germans: on the job, in private life, as coworkers, friends, and lovers." Andrei S. Markovits, American Journal of Sociology

"Lynn Rapaport's stimulating work provides a sociological examination of the Holocaust's impact on the relations between Jews and Germans in the postwar Federal Republic." Gavriel D. Rosenfeld, German Studies Review
