### **Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering)** From Brand: Woodhead Publishing

Ballistic composites need to be lightweight and durable as well as exhibiting high impact resistance and damage tolerance. This important book reviews these requirements, how the materials used for ballistic composites meet them and their range of applications.

After an introductory chapter, Lightweight ballistic composites is split into two main sections. The first part of the book explores material requirements and testing. There are chapters on bullets and bullet fragments, material responses to ballistic impact, standards and specifications, modelling and test methods. Part Two reviews the range of materials used, production methods and applications. Topics discussed include high-performance ballistic fibres and ceramics, non-woven ballistic and prepreg composites, and their uses in body armour, vehicle and aircraft protection.

This major book is the first of its kind to give a comprehensive review of the current use of lightweight ballistic composites in both military and law-enforcement applications. It is an invaluable reference for all those involved in personnel and vehicle protection in defence and police forces around the world.

- Reviews the current use of lightweight ballistic composites in both military and law-enforcement application
- An authoritative overview of the range of materials used, production methods and applications
- Explores material requirements and testing

## **Editorial Review**

### **About the Author**

Dr Ashok Bhatnagar joined Honeywell International Inc. in 1985 and over the last 29 years has developed several lightweight composite ballistic materials and products. He has filed more than 50 patents and has authored more than 40 publications. He has taught at both the Indian Institute of Technology Bombay, India and the Illinois Institute of Technology, Chicago.

## **Users Review**

### **From reader reviews:**

#### **Ashley McKay:**

The book Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) give you a sense of feeling enjoy for your spare time. You can utilize to make your capable far more increase. Book can for being your best friend when you getting stress or having big problem together with your subject. If you can make examining a book Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) being your habit, you can get more advantages, like add your own capable, increase your knowledge about some or all subjects. You can know everything if you like start and read a guide Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering). Kinds of book are a lot of. It means that, science reserve or encyclopedia or some others. So , how do you think about this book?

#### **Shane Ward:**

Do you have something that you like such as book? The publication lovers usually prefer to choose book like comic, small story and the biggest the first is novel. Now, why not trying Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) that give your fun preference will be satisfied by simply reading this book. Reading habit all over the world can be said as the way for people to know world better then how they react to the world. It can't be explained constantly that reading practice only for the geeky man but for all of you who wants to become success person. So , for all you who want to start looking at as your good habit, you may pick Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) become your own starter.

#### **Theodore Parish:**

You are able to spend your free time to learn this book this guide. This Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) is simple bringing you can read it in the area, in the beach, train in addition to soon. If you did

not have much space to bring the actual printed book, you can buy the particular e-book. It is make you simpler to read it. You can save the particular book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

**Anthony Malloy:**

Don't be worry for anyone who is afraid that this book can filled the space in your house, you could have it in e-book approach, more simple and reachable. This specific Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering) can give you a lot of close friends because by you investigating this one book you have issue that they don't and make an individual more like an interesting person. This specific book can be one of a step for you to get success. This publication offer you information that probably your friend doesn't learn, by knowing more than additional make you to be great persons. So , why hesitate? Let's have Lightweight Ballistic Composites: Military and Law-Enforcement Applications (Woodhead Publishing Series in Composites Science and Engineering).
