### The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) By Rudy Rucker

This is the definitive popular exploration of what the fourth dimension means, both physically and spiritually. Mathematician and science-fiction novelist Rudy Rucker takes readers on a guided tour of a higher reality that explores what the fourth dimension is and what it has meant to generations of thinkers. The exciting and challenging journey is enhanced by more than 200 illustrations and a host of puzzles and problems (with answers).

"This is an invigorating book, a short but spirited slalom for the mind." —

Timothy Ferris, *The New York Times Book Review*

"Highly readable. One is reminded of the breadth and depth of Hofstadter's *Gödel, Escher, Bach*." — *Science*

"Anyone with even a minimal interest in mathematics and fantasy will find *The Fourth Dimension* informative and mind-dazzling... [Rucker] plunges into spaces above three with a zest and energy that is breathtaking." — Martin Gardner

"Those who think the fourth dimension is nothing but time should be encouraged to read *The Fourth Dimension*, along with anyone else who feels like opening the hinges of his mind and letting in a bit of fresh air." — John Sladek, *Washington Post Book World*

"A mine of mathematical insights and a thoroughly satisfying read." — Paul Davies, *Nature Magazine*

### Users Review

#### From reader reviews:

#### Brian Lowe:

As people who live in the modest era should be upgrade about what going on or info even knowledge to make these individuals keep up with the era that is certainly always change and move forward. Some of you maybe can update themselves by looking at books. It is a good choice for yourself but the problems coming to you is you don't know what type you should start with. This The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) is our recommendation to make you keep up with the world. Why, as this book serves what you want and need in this era.

**Juan Palmer:**

Spent a free time for you to be fun activity to do! A lot of people spent their sparetime with their family, or their very own friends. Usually they undertaking activity like watching television, planning to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could possibly be reading a book might be option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of book that you should read. If you want to test look for book, may be the publication untitled The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) can be good book to read. May be it might be best activity to you.

**Jim Moffett:**

Do you have something that that suits you such as book? The book lovers usually prefer to pick book like comic, limited story and the biggest some may be novel. Now, why not trying The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) that give your fun preference will be satisfied by simply reading this book. Reading habit all over the world can be said as the opportunity for people to know world considerably better then how they react toward the world. It can't be claimed constantly that reading habit only for the geeky man but for all of you who wants to be success person. So , for all you who want to start looking at as your good habit, you may pick The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) become your own starter.

**Deborah Anderson:**

That reserve can make you to feel relax. This kind of book The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) was colorful and of course has pictures around. As we know that book The Fourth Dimension: Toward a Geometry of Higher Reality (Dover Books on Science) has many kinds or type. Start from kids until adolescents. For example Naruto or Detective Conan you can read and think that you are the character on there. So , not at all of book are generally make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book to suit your needs and try to like reading that will.
