## A Dictionary of Scientific Quotations By Alan L. Mackay

Science affects us all-in the words of Albert Einstein, "The whole of science is nothing more than a refinement of everyday thinking." It is therefore fascinating to discover the thoughts of scientists, philosophers, humanists, poets, theologians, politicians, and other miscellaneous mortals on this most important of subjects.

**A Dictionary of Scientific Quotations** is a personal selection of scientific quotations by Professor Alan L Mackay that includes graffiti, lines of song, proverbs, and poetry. Whether you believe that "All problems are finally scientific problems" (George Bernard Shaw) or that "Imagination is more important than knowledge" (Einstein), it is without doubt that "It is a good thing for an uneducated man to read books of quotations" (Churchill). You will be charmed and delighted by this collection and remember, "'Why,'" said the Dodo, "the best way to explain it is to do it" (Alice in Wonderland, Lewis Carroll).

### **Editorial Review**

#### **Review**

...A witty and stimulating bed-side book.

?Contemporary Physics

I would also thoroughly recommend the book as simply a good read for anyone ... No scientist's bookshelf should be without one.

?The Journal of the IPSM and HPA-SCOPE

Irresistible.

?New Scientist

Very brilliant, pleasing to the [reader] ... connoisseurs will find satisfaction, but in such a way that even non-connoisseurs must feel content without knowing why.

?Scientometrics

#### **From the Back Cover**

Whether you believe that 'All problems are finally scientific problems' (George Bernard Shaw) or that 'Imagination is more important than knowledge' (Einstein), it is beyond doubt that 'It is a good thing for an uneducated man to read books of quotations' (Churchill).

### **Users Review**

#### **From reader reviews:**

##### **Norma Lorentzen:**

Information is provisions for those to get better life, information presently can get by anyone at everywhere. The information can be a know-how or any news even a huge concern. What people must be consider whenever those information which is within the former life are hard to be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you find the unstable resource then you have it as your main information there will be huge disadvantage for you. All those possibilities will not happen in you if you take A Dictionary of Scientific Quotations as your daily resource information.

##### **Steven Cordell:**

As a student exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's spirit or real their passion. They just do what the teacher want, like asked to the library. They go to at this time there but

nothing reading significantly. Any students feel that reading is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this A Dictionary of Scientific Quotations can make you truly feel more interested to read.

### **Lorraine Wheat:**

What is your hobby? Have you heard that question when you got students? We believe that that concern was given by teacher with their students. Many kinds of hobby, Every person has different hobby. And you also know that little person such as reading or as examining become their hobby. You need to understand that reading is very important and book as to be the matter. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You discover good news or update concerning something by book. A substantial number of sorts of books that can you choose to adopt be your object. One of them is niagra A Dictionary of Scientific Quotations.

### **Marlyn Melia:**

Many people said that they feel uninterested when they reading a guide. They are directly felt this when they get a half parts of the book. You can choose often the book A Dictionary of Scientific Quotations to make your current reading is interesting. Your personal skill of reading talent is developing when you like reading. Try to choose easy book to make you enjoy you just read it and mingle the impression about book and looking at especially. It is to be very first opinion for you to like to start a book and read it. Beside that the reserve A Dictionary of Scientific Quotations can to be your brand new friend when you're really feel alone and confuse in what must you're doing of their time.
