### Homeland: And Other Stories By Barbara Kingsolver

With the same wit and sensitivity that have come to characterize her highly praised and beloved novels, Barbara Kingsolver gives us a rich and emotionally resonant collection of twelve stories. Spreading her memorable characters over landscapes ranging from Northern California to the hills of eastern Kentucky and the Caribbean island of St. Lucia, Kingsolver tells stories of hope, momentary joy, and powerful endurance. In every setting, Kingsolver's distinctive voice—at times comic, but often heartrending—rings true as she explores the twin themes of family ties and the life choices one must ultimately make alone.

Homeland and Other Stories creates a world of love and possibility that readers will want to take as their own.

### Editorial Review

From Publishers Weekly

With this dazzling array of stories, demonstrating a wide range of characterizations, settings, situations and narrative voices, Kingsolver confirms the promise of her astonishingly accomplished first novel, *The Bean Trees*. Most of these dozen tales ring with authentic insights, leaving the reader moved, amused or enlightened. Kingsolver's knowledge of human nature, and especially domestic relationships, is breathtaking. She is able to convey the personalities and voices of such diverse characters as a feisty union organizer of Mexican ancestry; a young girl trying to be faithful to the legacy of her Cherokee grandmother; a life-scarred ex-con determined to go straight; an upper-middle-class wife and mother on a clandestine trip to the Petrified Forest with her lover; a middle-aged man whose cherished wife gives him an intimation of her mortality; a child from a poor farming family who befriends an outcast in her Kentucky community. Among the standout stories is "Islands on the Moon," in which a single mother faces her pregnancy with added exasperation because her mother--also single--will be having a baby at the same time. Propelled by fresh, breezy dialogue, funny, tender and full of surprises, the story takes a poignant turn when the mother and daughter heal their estrangement on a portentous day. If the symbolism in a few of these tales is sometimes too obvious, Kingsolver handles every other narrative device with delicacy and subtle skill. First serial to *Redbook* and *Mademoiselle*.

From Library Journal

Kingsolver's second book--her novel, *The Bean Trees* (LJ 2/1/88), won high praise--consists of uniformly affecting short stories, enhanced by real wisdom and generous warmth. Her characters, mostly mothers and daughters, uncover those memories and truths, once deeply buried, that emerge in moments of sudden crisis. In "Rose-Johnny," a young southern girl clings tightly to the ostracized woman she befriends. In "Blueprints," an unmarried Sacramento woman endures and transforms a long relationship, once happy, that threatens to turn into cabin fever. Kingsolver is not an innovator, but her voice is sure and her narrative skill accomplished. Highly recommended.
