Editorial Review

About the Author

Georgios Diamantopoulos was born and raised in Greece, Corinth in February, 1984. His scientific incline towards computers was evident in his teenage years and he pursued his dreams by moving to Birmingham, UK to study Computer Systems Engineering in 2001. Early on in his course he expressed further interest in video editing and compression. Georgios graduated in July 2004 with an Honours degree from the University of Birmingham, where he is currently researching in the field of video compression towards a PhD degree. He has been involved with various extracurricular activities such as writing documentation for various video editing tasks and developing a video quality assessment utility after the name of Video Quality Studio.

Users Review

From reader reviews:

Lavinia Arthur:

This Learning VirtualDub: The complete guide to capturing, processing and encoding digital video book is just not ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book is usually information inside this e-book incredible fresh, you will get info which is getting deeper you actually read a lot of information you will get. This particular Learning VirtualDub: The complete guide to capturing, processing and encoding digital video without we recognize teach the one who reading it become critical in contemplating and analyzing. Don't always be worry Learning VirtualDub: The complete guide to capturing, processing and encoding digital video can bring any time you are and not make your tote space or bookshelves' turn out to be full because you can have it in the lovely laptop even mobile phone. This Learning VirtualDub: The complete guide to capturing, processing and encoding digital video having good arrangement in word and layout, so you will not truly feel uninterested in reading.

Rufus George:

Nowadays reading books be than want or need but also be a life style. This reading behavior give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The info you get based on what kind of book you read, if you want have more knowledge just go with schooling books but if you want truly feel happy read one together with theme for entertaining for example comic or novel. Often the Learning VirtualDub: The complete guide to capturing, processing and encoding digital video is kind of reserve which is giving the reader capricious experience.

Katie Harper:

Information is provisions for those to get better life, information currently can get by anyone on everywhere. The information can be a know-how or any news even a concern. What people must be consider any time those information which is in the former life are difficult to be find than now could be taking seriously which

one would work to believe or which one the actual resource are convinced. If you get the unstable resource then you get it as your main information there will be huge disadvantage for you. All those possibilities will not happen with you if you take Learning VirtualDub: The complete guide to capturing, processing and encoding digital video as your daily resource information.

Nancy Herman:
