### Editorial Review

Amazon.com Review

#### Product Description

With all-new range maps, updated text, and 40 new paintings, the completely revised editions of two classic Peterson Field Guides are sure to be valuable additions to any birder's pocket or daypack. At a trim size of 5 x 8, they are portable but also beautifully illustrated. Photographs, while modern looking and colorful, capture just one moment in time. The paintings in these guides, however, show all of a bird's key field marks and use the Peterson Identification System to make bird identification easier for beginning and intermediate bird watchers. A team of professional birders has updated the text, the maps, and the art for these authoritative guides. Expert birders also created 35 entertaining and easy-to-use video podcasts, which are available to download. They make fun and educational viewing on a computer desktop or MP3 player.

The best-selling field guide since 1934, the *Peterson Field Guide to Birds of Eastern and Central North America* is now in its sixth edition. With clear, succinct accounts of more than 500 species, accurate and beautiful paintings on 159 color plates, and 512 maps annotated with extensive range information, this is the most up-to-date and accessible field guide for bird watchers in eastern North America

From [Booklist](#)

Based on the Peterson Field Guide to Birds of North America (2008), this new edition of the original regional guide (2002) brings the same improvements and corrections to maps, taxonomy, and paintings. Peterson Field Guides are best for beginning to intermediate birders and are, as always, wonderful for teachers and trip leaders. The 2010 volumes (that is, this title and the fourth edition of Peterson Field Guide to Birds of Western North America) are simply subsets of the 2008 comprehensive volume, and as such contain no new information. Highly recommended for all libraries, especially those that do not own the 2008 North American guide. --Jeff Kosokoff

#### About the Author

Roger Tory Peterson, one of the world's greatest naturalists, received every major award for ornithology, natural science, and conservation as well as numerous honorary degrees, medals, and citations, including the Presidential Medal of Freedom. The Peterson Identification System has been called the greatest invention since binoculars. These editions include updated material by Michael O'Brien, Paul Lehman, Bill Thompson III, Michael DiGiorgio, Larry Rosche, and Jeffrey A. Gordon.

#### Users Review

##### From reader reviews:

##### Nannie Hernandez:

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what the ones you have problem? How about your extra time? Or are you busy man? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have free time? What did you do?
