Remote Control: Andy McNab's best-selling series of Nick Stone thrillers - now available in the US, with bonus material By Andy McNab

Tough, resourceful, ruthless – as an SAS trooper, Nick Stone was one of the best. Now he's back on the streets. After a botched mission, the Regiment no longer want his services. But British Intelligence does – as a deniable operator. It's the dirtiest job in a very, very dirty world. In Washington DC, it's about to get dirtier still. On the apparently routine tail of two terrorists, he discovers the bodies of an ex-SAS officer and his family. Soon he's on the run with the lone survivor of the bloodbath – a seven year old girl. And whilst she can identify the killers, only Stone can keep them at bay – and solve a mystery whose genesis takes him back to the most notorious SAS mission in recent history... Remote Control is the first of Andy McNab's blistering Nick Stone thrillers – bestsellers whose landscape is so compellingly close to the truth that they had to be vetted by the Ministry of Defence, and could only be published as fiction... 'Proceeds with a testosterone surge' Daily Telegraph

Editorial Review

Amazon.com Review

Don't expect to see Andy McNab's photograph on the cover of his first thriller, *Remote Control*--the former British Special Air Service agent says both the Colombian drug cartel and the Provisional IRA still have contracts out on him. His two nonfiction books, *Bravo Two Zero* and *Immediate Action*, give more detail about his prolific past.

Remote Control is the fictional story of an SAS agent named Nick Stone, who is on the case of two Irish terrorists. He follows them across the Atlantic to Washington, D.C., but is suddenly ordered back home on the next available flight. His old mate Kevin Brown, now with the Drug Enforcement Agency, lives near the airport, so Nick decides to drop in. He finds a slaughterhouse: Kev, his wife, and youngest daughter have been battered to death, but daughter Kelly has survived in a special hideout. Prying information from the shocked child, Nick links the killers to either the CIA, the DEA, or his own organization--which means that he and Kelly are virtually on their own. As Nick trundles the spunky youngster from one seedy motel to another, stuffs her with junk food, and teaches her the rudiments of spy craft, he also begins to piece together a picture of why Kevin and his family were killed. There is a connection between a terrorist bomb scare in Gibraltar in 1988, the Colombian drug cartel, and high-level intelligence-agency skullduggery. McNab keeps dropping those shiny nuggets of believability along the trail and winds up holding our attention until the predictable but satisfying end. --Dick Adler

From Publishers Weekly

A rogue Special Air Service agent on the lam in suburban America with the seven-year-old daughter of a murdered colleague. Sounds like the latest Bruce Willis vehicle, costarring that little girl from the Pepsi commercials. But McNab, a former SAS agent himself and author of two nonfiction books on the subject, manages to balance the clichés and cuteness with large doses of tradecraft taken from his 17 years of undercover experience. When Nick Stone describes how to maintain a fictitious address or reveals the secrets of tracing a call made from a public telephone, the details ring trueAand help get us over some of the more ludicrous speed bumps in his story. Stone, tracking two Irish terrorists from London to Washington, is suddenly ordered back home on the next available flight. His old mate Kevin Brown, now with the Drug Enforcement Agency, lives nearby, so Nick decides to drop in. He finds a slaughterhouse: Kev, his wife, and youngest daughter have been murdered, but daughter Kelly has survived in a special hideout. Prying information from the shocked child, Stone links the killers to either the CIA, the DEA or his own organizationAwhich means that he and Kelly are on the run from everybody. As Nick trundles the spunky youngster from one seedy motel to another, stuffs her with junk food and teaches her the rudiments of espionage, he puts together a picture of why Kevin and his family were killedAa connection between a terrorist bomb scare in Gibraltar in 1988, the Colombian drug cartel and high-level intelligence agency skullduggery. The vast network of sinister collaborations isn't startling, but McNab reliably delivers the believable, real-life details and keeps readers' attention with steady, careful prose until the predictable but satisfying end. (June) FYI: *Remote Control* was the number one bestseller in London's Sunday Times for seven weeks. Because of McNab's SAS involvement, and his wanted status by several terrorist groups, he makes no public appearances.

Review

"It's a corker."

— *Independent*

"An enjoyably gritty thriller."

— *The Scotsman*

"Proceeds with a testosterone surge."

— *Daily Telegraph*

"McNab is the best suspense thriller writer to put pen to paper since Alistair MacLean."

--STEPHEN COONTS

Author of *Flight of the Intruder*

"Action-packed and authentic in every detail, it gives us a hero who's at least as scary as the villains. Andy McNab is the real deal and a rare commodity--a hard guy who knows how to write."

--JOHN CASE

Author of *The First Horseman*

From the Paperback edition.
