**Eleventh Hour CISSP: Study Guide** By Eric Conrad, Seth Misenar, Joshua Feldman

Eleventh Hour CISSP Study Guide serves as a guide for those who want to be information security professionals. The main job of an information security professional is to evaluate the risks involved in securing assets and to find ways to mitigate those risks. Information security jobs include firewall engineers, penetration testers, auditors, and the like.

The book is composed of 10 domains of the Common Body of Knowledge. In each section, it defines each domain. The first domain provides information about risk analysis and mitigation, and it discusses security governance. The second domain discusses techniques of access control, which is the basis for all security disciplines. The third domain explains the concepts behind cryptography, which is a secure way of communicating that is understood only by certain recipients. Domain 5 discusses security system design, which is fundamental in operating the system and software security components. Domain 6 is one of the critical domains in the Common Body of Knowledge, the Business Continuity Planning and Disaster Recovery Planning. It is the final control against extreme events such as injury, loss of life, or failure of an organization. Domain 7, Domain 8 and Domain 9 discuss telecommunications and network security, application development security, and the operations domain, respectively. Domain 10 focuses on the major legal systems that provide a framework for determining laws about information system.

- The only guide you need for last-minute studying
- Answers the toughest questions and highlights core topics
- Can be paired with any other study guide so you are completely prepared

## Editorial Review

### Review

"*Eleventh Hour CISSP Study Guide* provides an effective and efficient review of the CISSP ten domains by eliminating the fluff that is in most CISSP study guides. For security professionals in a time crunch or those looking for a last-minute refresher, this is a must-read before taking the exam."--**Tony Flick, CISSP, Author of *Securing the Smart Grid* and Principal at FYRM Associates**

### From the Back Cover

*The Eleventh Hour CISSP Study Guide* is keyed to the latest CISSP exam. This book is streamlined to include only core certification information and is presented for ease of last-minute studying. Main objectives of the exam are covered concisely with key concepts highlighted.

### About the Author

Eric Conrad (CISSP, GIAC GSE, GPEN, GCIH, GCIA, GCFA, GAWN, GSEC, Security+), is a SANS-certified instructor and President of Backshore Communications, which provides information warfare, penetration testing, incident handling, and intrusion detection consulting services. Eric started his professional career in 1991 as a UNIX systems administrator for a small oceanographic communications company. He gained information security experience in a variety of industries, including research, education, power, Internet, and healthcare, in positions ranging from systems programmer to security engineer to HIPAA security officer and ISSO. He has taught more than a thousand students in courses such as SANS Management 414: CISSP, Security 560: Network Penetration Testing and Ethical Hacking, Security 504: Hacker Techniques, and Exploits and Incident Handling. Eric graduated from the SANS Technology Institute with a Master of Science degree in Information Security Engineering.

Seth Misenar (CISSP, GPEN, GCIH, GCIA, GCFA, GWAPT, GCWN, GSEC, MCSE, MCDBA), is a certified instructor with the SANS Institute and serves as lead consultant for Context Security, which is based in Jackson, Mississippi. His background includes security research, network and Web application penetration testing, vulnerability assessment, regulatory compliance, security architecture design, and general security consulting. Seth previously served as a physical and network security consultant for Fortune 100 companies and as the HIPAA and information security officer for a state government agency. He teaches a variety of courses for the SANS Institute, including Security Essentials, Web Application Penetration Testing, Hacker Techniques, and the CISSP course.

Seth is pursuing a Master of Science degree in Information Security Engineering from the SANS Technology Institute and holds a Bachelor of Science degree from Millsaps College, Jackson, Mississippi.

Joshua Feldman (CISSP), is currently employed by SAIC, Inc. He has been involved in the Department of Defense Information Systems Agency (DISA) Information Assurance Education, Training, and Awareness program since 2002, where he has contributed to a variety of DoD-wide Information Assurance and Cyber Security policies, specifically the 8500.2 and 8570 series. Joshua has taught more than a thousand DoD students through his "DoD IA Boot Camp" course. He is a subject matter expert for the Web-based DoD Information Assurance Awareness-yearly training of every DoD user is required as part of his or her security awareness curriculum. Also, he is a regular presenter and panel member at the annual Information Assurance

Symposium hosted jointly by DISA and NSA. Before joining the support team at DoD/DISA, Joshua spent time as an IT security engineer at the Department of State's Bureau of Diplomatic Security. He got his start in the IT security field with NFR Security Software, a company that manufactures Intrusion Detection Systems. There, he worked as both a trainer and an engineer, implementing IDS technologies and instructing customers how to properly configuring them.
