Qshell for iSeries By Ted Holt, Fred Kulack

From the basics of programming in the Qshell on iSeries to complete coverage of previously undocumented topics, programmers will not only learn the Qshell more easily than they can with the Qshell manual from IBM, they will also learn practical applications of using the Qshell effectively. Written for users who are more comfortable with DDS, CL, and RPG as well as those using modern languages such as C and Java, this book allows those who are unfamiliar with Unix to easily learn this technology, which otherwise might be foreign to them. Although written specifically for iSeries programmers, the information gleaned here will be largely applicable to the shells for Linux and Unix, so programmers not familiar with those platforms will find those shells much easier to learn after learning Qshell.

Editorial Review

About the Author

Ted Holt has worked in the information industry since 1981, primarily with IBM midrange computers. His industry experience includes the fields of manufacturing, healthcare, education, retail, and wholesale. He is the author of *The MC Press Desktop Encyclopedia of Tips, Techniques, and Programming Practices for iSeries and AS/400*, *Complete CL*, and *Open Query File Magic*. He lives in Corinth, Mississippi. **Fred Kulack** is an IBM developer who has implemented portions of many of the UNIX type API components on the iSeries. He has worked on Java and J2EE technologies like JDBC, the Java Transaction API, and WebSphere and was part of the team that developed the Qshell interpreter. He now helps large IBM business partners with architecture, porting, and performance related to their C, C++, Java, and J2EE applications. He lives in Rochester, Minnesota.

Users Review

From reader reviews:

Jennifer Galaviz:

What do you about book? It is not important with you? Or just adding material when you need something to explain what the one you have problem? How about your free time? Or are you busy individual? If you don't have spare time to do others business, it is make one feel bored faster. And you have extra time? What did you do? Every individual has many questions above. They must answer that question mainly because just their can do that. It said that about guide. Book is familiar on every person. Yes, it is appropriate.
