Bills of Lading Incorporating Charterparties By Melis Ozdel

Vessels quite frequently serve under a long chain of charterparties and sub-charterparties. When this is the case, the legal issues are more convoluted than they might at first seem. Incorporation clauses are commonplace in bills of lading used in the tramp trade due to the desire to make this web of contracts back-to-back. The extent to which the terms of the referred charterparty can be carried across the bill of lading has, over the centuries, been hotly disputed in many jurisdictions. Entirely dedicated to the topic of the incorporation of charterparty terms into bills of lading, this book discusses and analyzes the legal and practical issues surrounding this topic under English and US law. Through discussions on the incorporation of a wide range of different charterparty terms, the book combines the peculiar and sophisticated rules of incorporation with the legal and practical issues concerning shipping, international trade, arbitration, and conflict of laws and jurisdiction. [Subject: International Trade Law, Maritime Law, Commercial Law, Contract Law, Tort Law, Arbitration, Restitution]
